

Knowledge Graph Management Systems

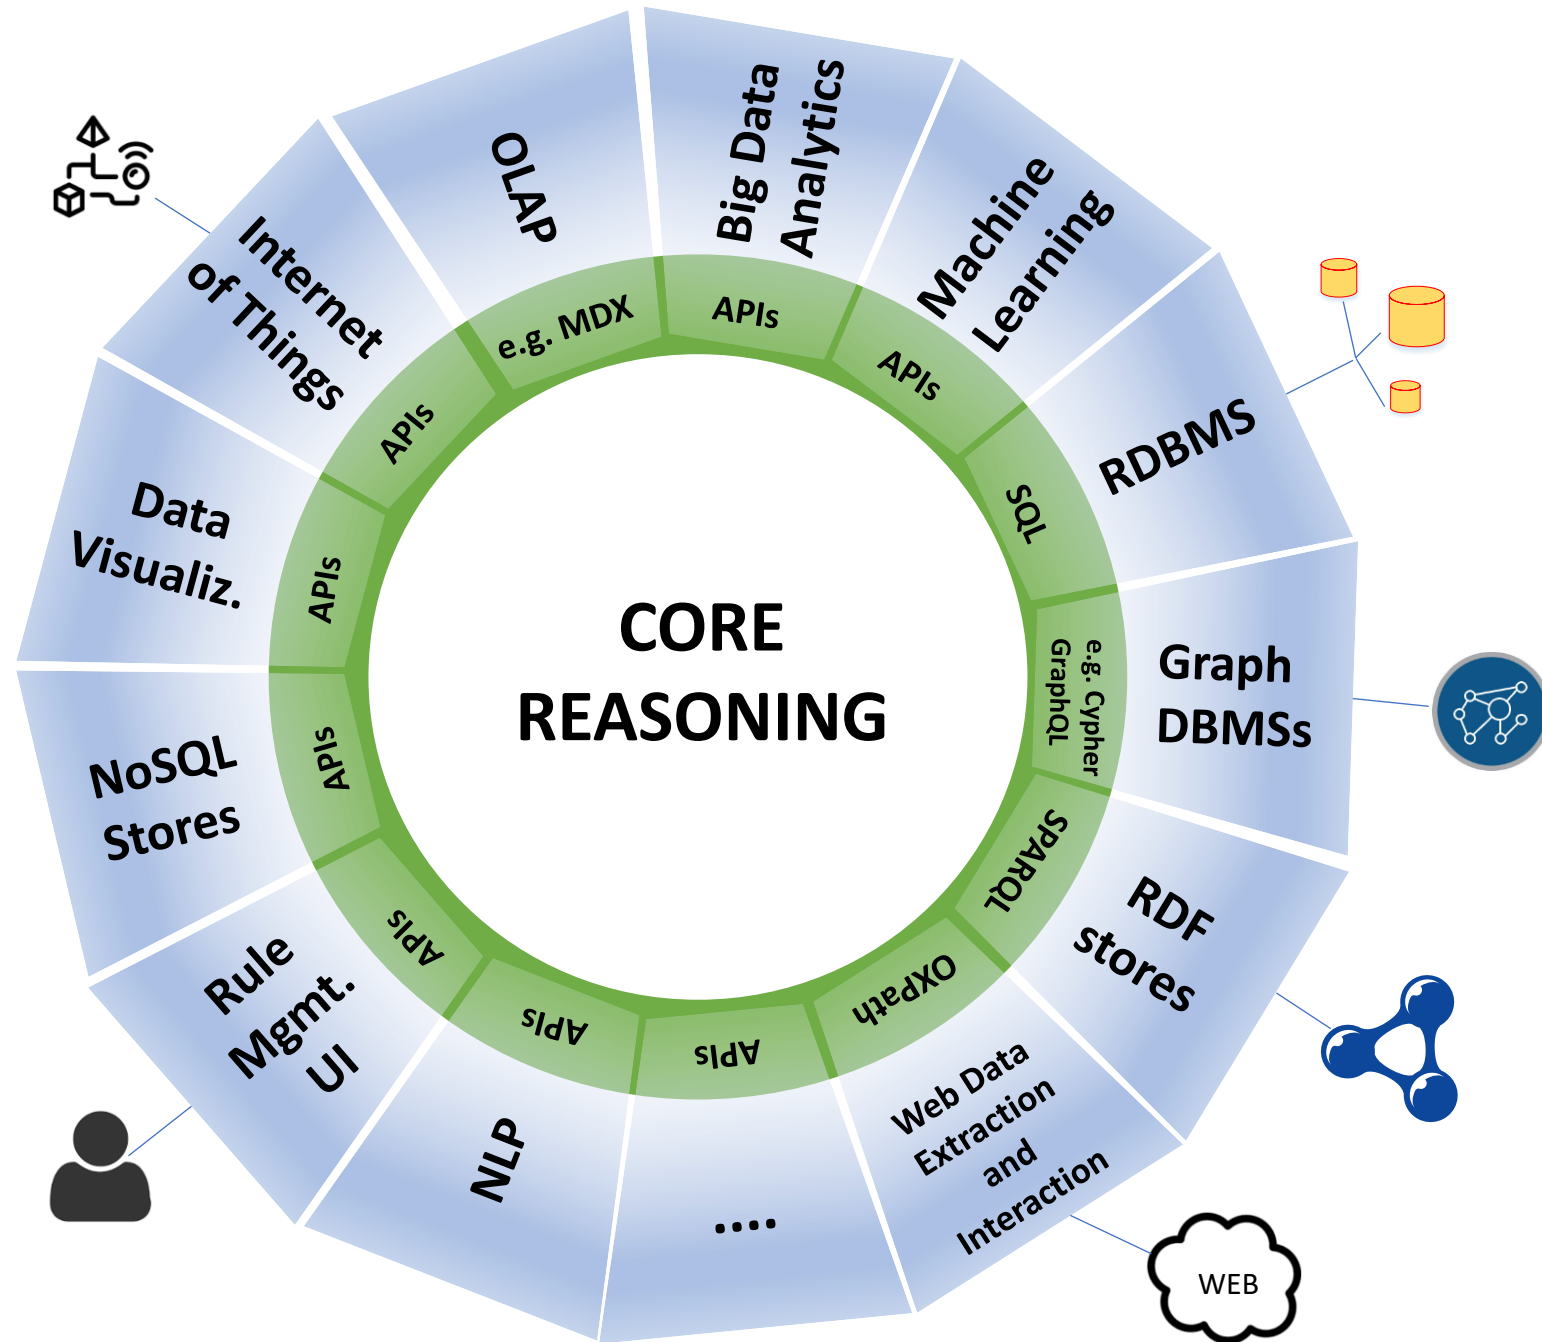

Vadalog

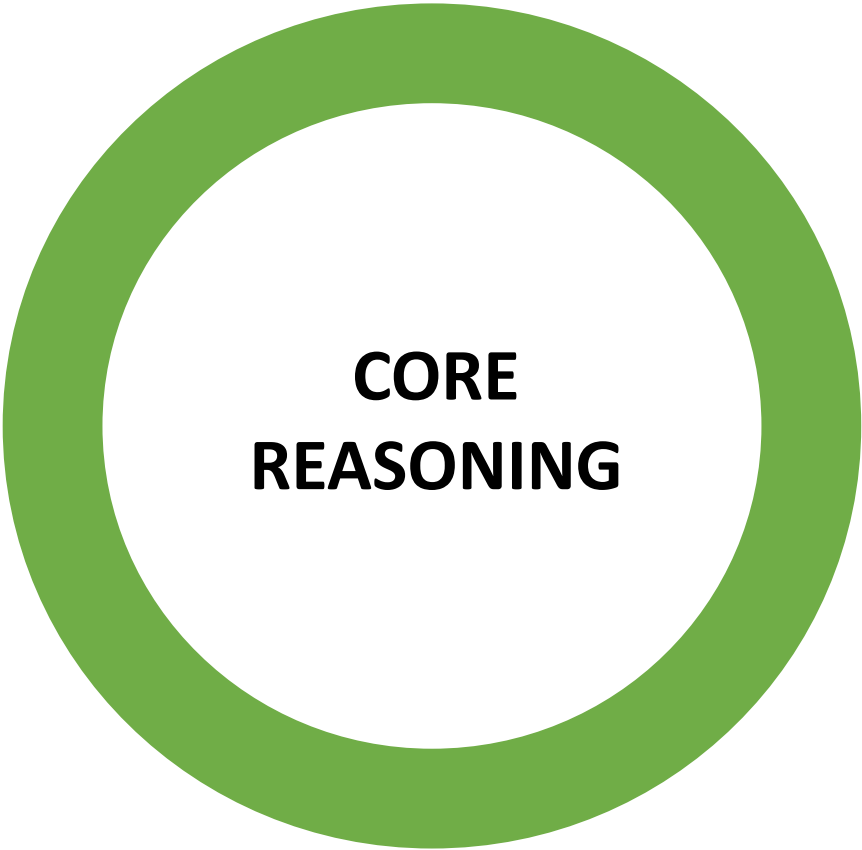

Emanuel Sallinger

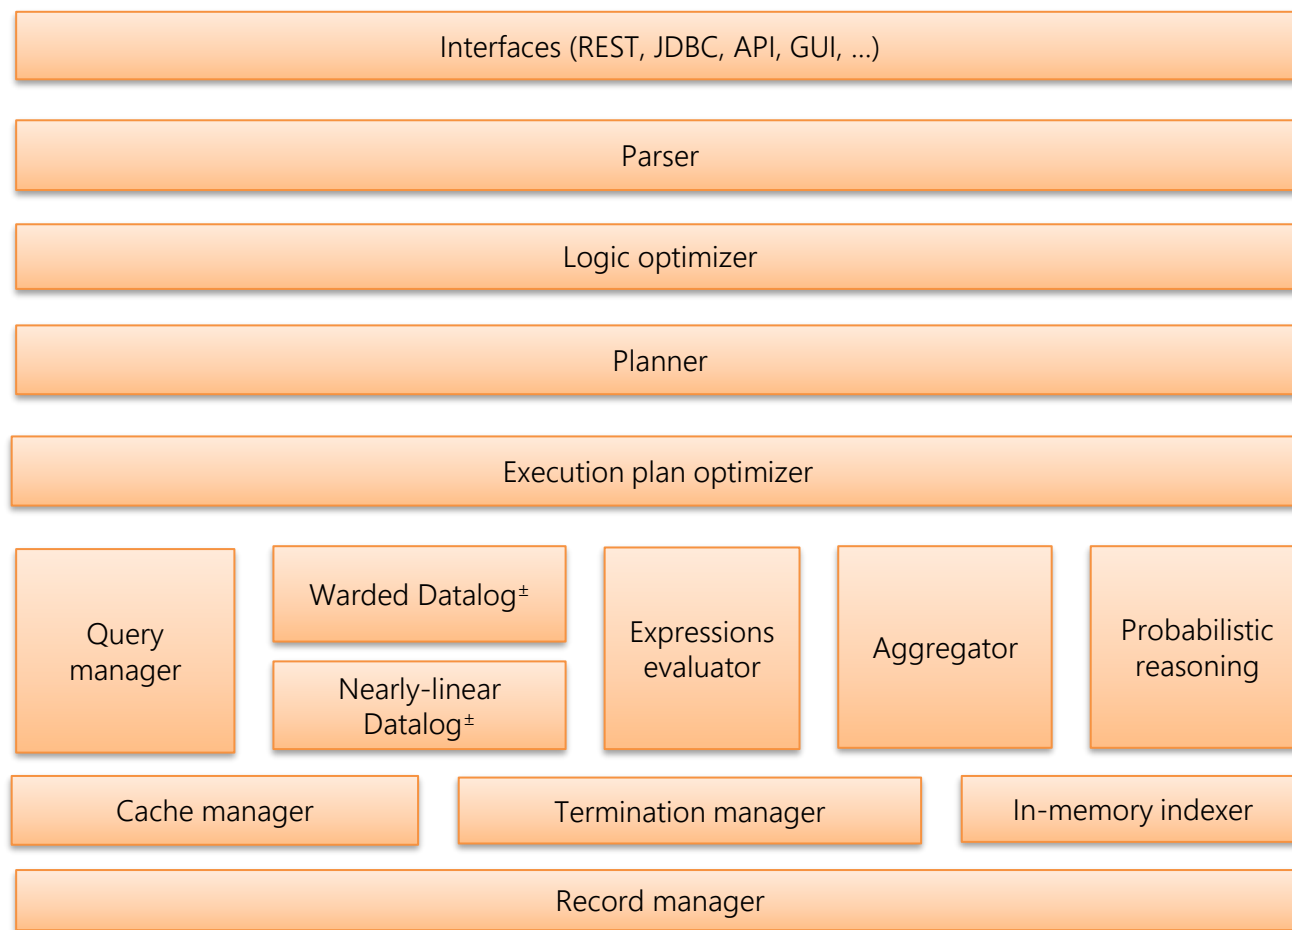

Reasoning Requirements

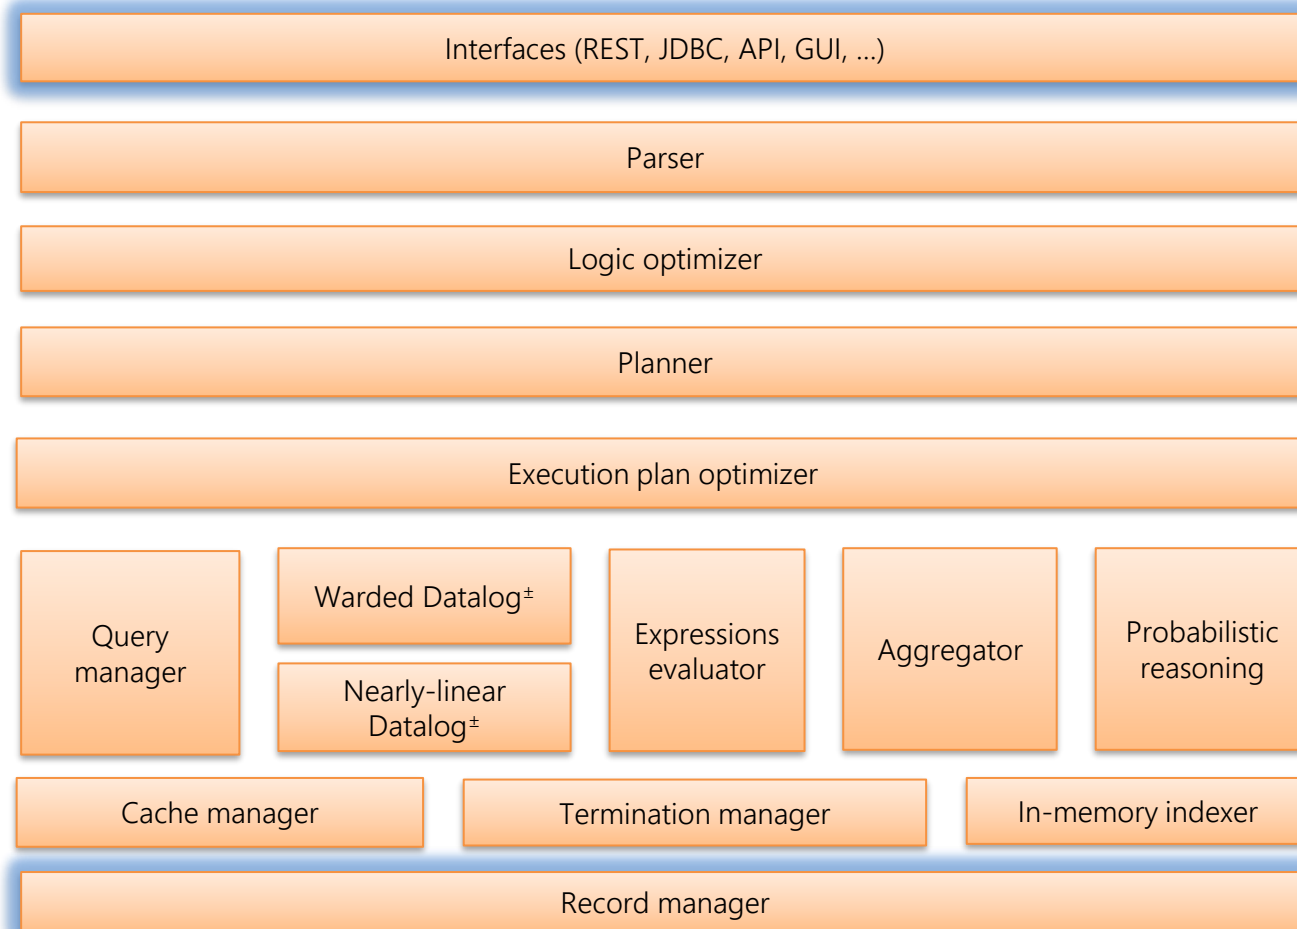

1. **Recursive** Reasoning: *full recursion over graphs*
2. **Ontological** Reasoning: *object creation, ...*
3. **Numerical** Reasoning: *numeric computation and aggregation*
4. **Probabilistic** Reasoning: *uncertain information*
5. **Subsymbolic** Reasoning: *low-dimensional spaces*
6. **Temporal** Reasoning: *reasoning over time*
7. **Scalable** Reasoning: *coping with large datasets*

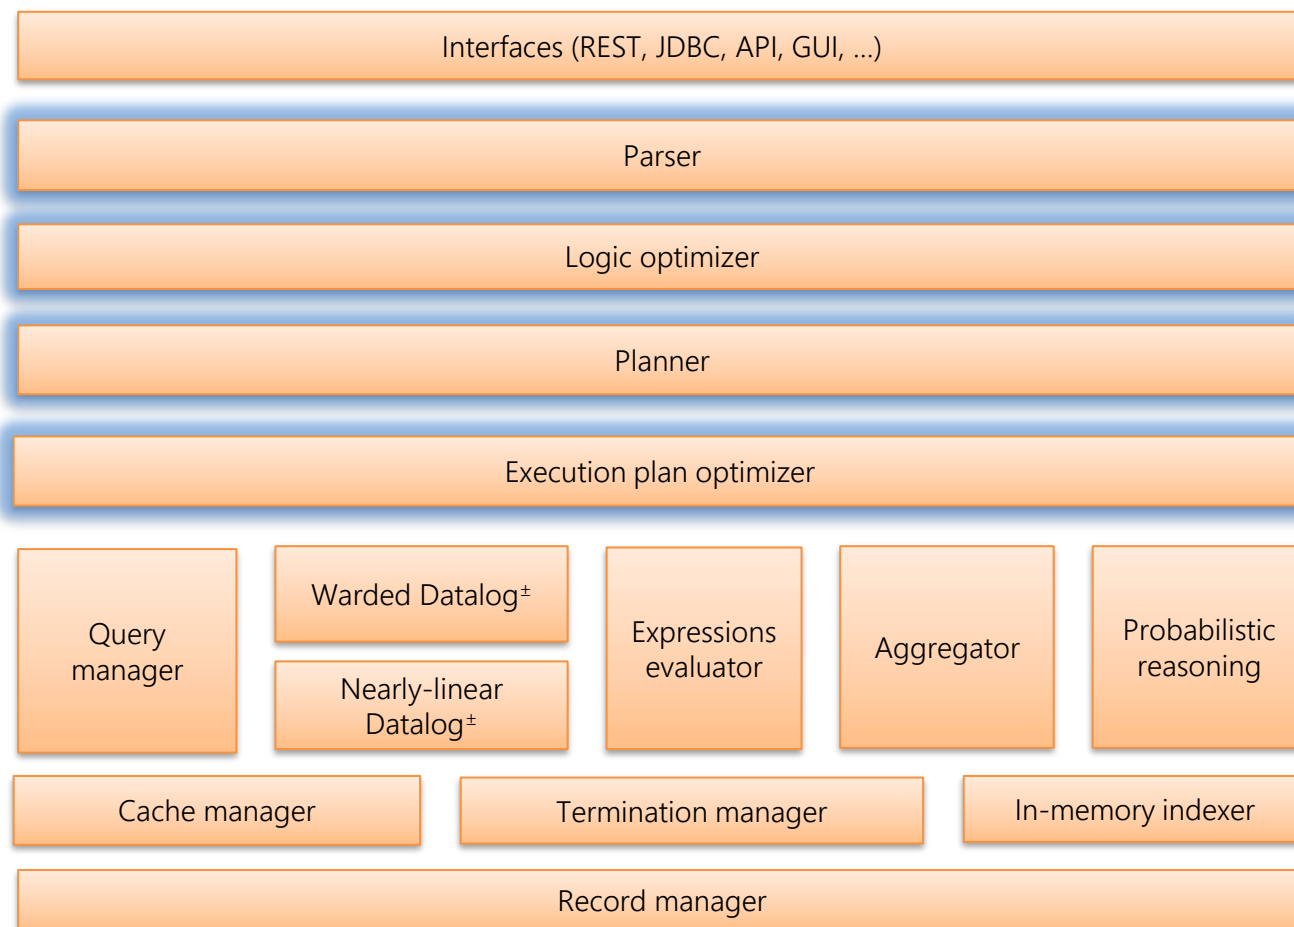

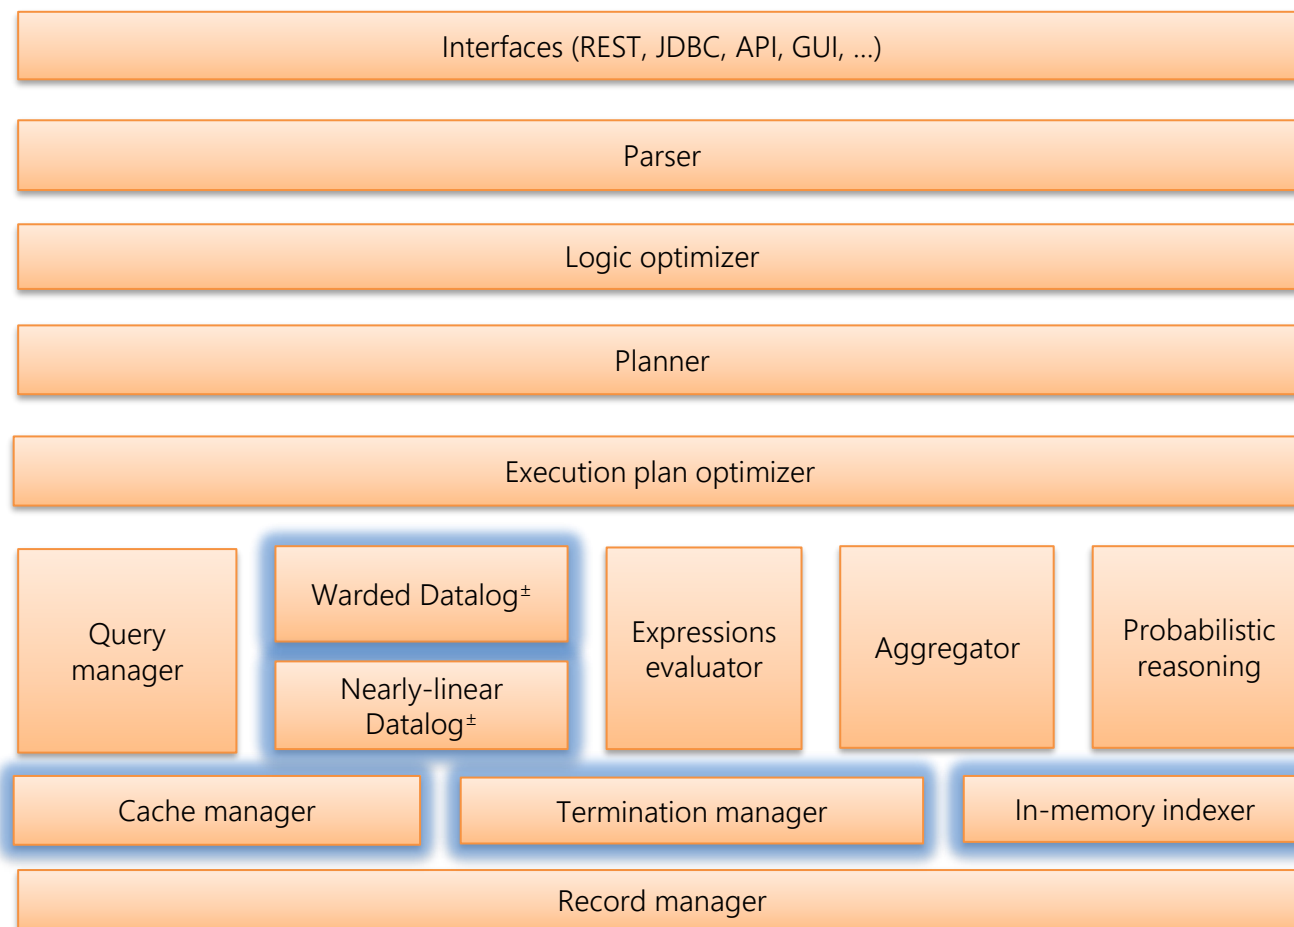

A large green circle with a thick border, centered on the slide.

**CORE
REASONING**

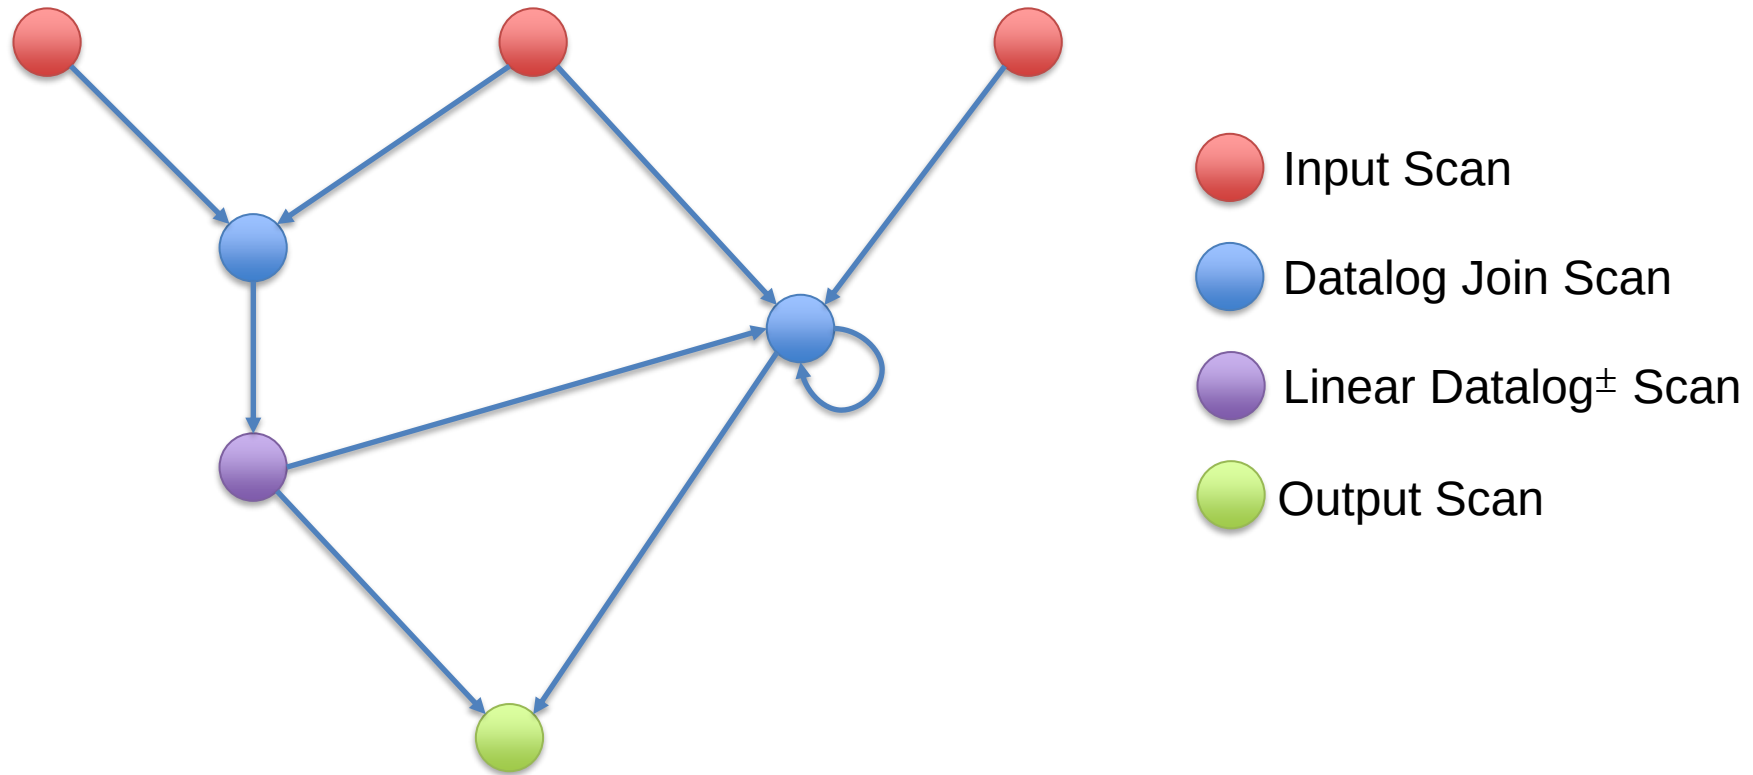

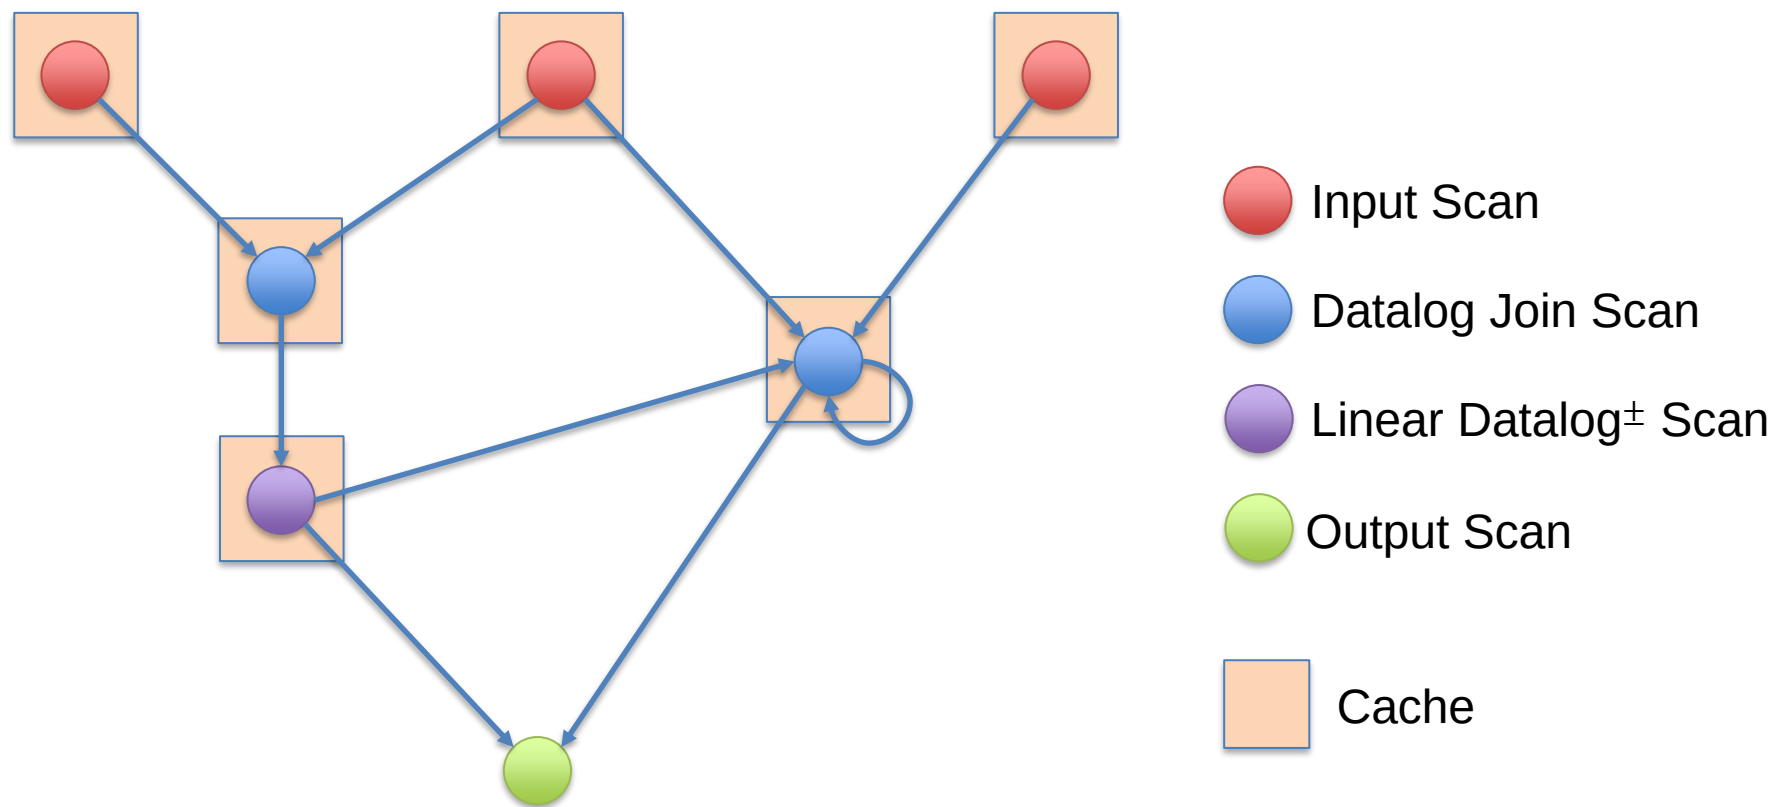

In-Memory Stream Processing
